Summary				
<p>Steel Belted Radius is a fully featured Radius server from Funk allowing access to the corporate access by dial in or setting up VPN tunnels. Vasco offers a Plug-In for Funk SBR. The Plug-In offers additional Token Authentication allowing users to logon over RAS and VPN services with a One Time Password. The Plug-In offers a console to Manage the Digipasses linked to those users allowed to log in with One Time Passwords.</p>
