

# VASCO Compatibility Sheet Microsoft Outlook Web Access (OWA)

Authentication Method		Licensing	
<input checked="" type="checkbox"/> Response Only	<input checked="" type="checkbox"/> Named user based		
<input type="checkbox"/> Challenge/Response			
<input type="checkbox"/> Signature			
Summary			
<p>Microsoft Outlook Web Access allows you to use a standard Web-browser to access your e-mails, calendar, tasks, etc. The web-based access is traditionally based upon static password authentication, requiring the user to enter his domain username and password in a public and insecure environment.</p> <p>The Digipass Pack for OWA allows you to secure the web-based access by means of Digipass One Time Password, thereby greatly enhancing the security.</p>			
Supported partner products			
<input checked="" type="checkbox"/> Microsoft Exchange 2000 SP3 with Outlook Web Access			
Required VASCO products			
<input checked="" type="checkbox"/> VACMAN Middleware 2.1 (Windows NT 4, Windows 2000) <input checked="" type="checkbox"/> VACMAN Middleware for WEB IIS Filter 2.1 (Windows 2000 – IIS 5.0) <input checked="" type="checkbox"/> Digipass Pack GO 1/GO 3/PRO 300/for Windows for OWA – Commercial bundle including Digipass token and necessary VACMAN Middleware software

Additional information			
<input checked="" type="checkbox"/> <a href="http://www.vasco.com/owa">www.vasco.com/owa</a> <input checked="" type="checkbox"/> Digipass Pack for OWA White Paper <input checked="" type="checkbox"/> VACMAN Middleware product documentation <input checked="" type="checkbox"/> Evaluation version available for download			
Remarks			
<p>Primary and Backup VACMAN Middleware each include a license to secure 1 Web-server with Digipass Strong Authentication. Additional VACMAN Middleware Web Filters need to be purchased separately if more Web servers need to be secured. The Digipass Pack for OWA supports Single-Server configurations and Front-End/Back-End configuration with Pass-Thru Authentication setup on the Front-End Server. More details on this can be found in the Digipass Pack for OWA White Paper.</p>
